ALLGORITHM & Galerie On Sunset Announce

WARSAW — A Solo Exhibition by Samuel Elliot Phillips

The artist's inaugural physical exhibition and the first collaboration between ALLGORITHM and Galerie on Sunset

On View: November 6, 2025 – January 6, 2026

Galerie on Sunset — 8226 West Sunset Blvd., West Hollywood, CA

West Hollywood, CA — ALLGORITHM announces WARSAW, a solo exhibition of new works by American artist Samuel Elliot Phillips, presented at Galerie on Sunset from November 6, 2025 through January 6, 2026. The exhibition marks Phillips' first physical presentation and inaugurates a new partnership between ALLGORITHM and Galerie on Sunset — the newly opened supper-club and cultural venue on the Sunset Strip.

WARSAW serves as the physical extension of Phillips' online exhibition The Material World, which debuts earlier in the year (June 20 – August 10, 2025) exclusively via ALLGORITHM and Artsy. While The Material World introduces eight mixed-media works on canvas in a digital format, WARSAW presents a new body of work created specifically for a physical setting.

Phillips' practice incorporates charcoal, acrylic, and inkjet transfer, materials associated with immediacy and instinct. Raised outside Burlington, Vermont, he developed a visual language that merges classical Americana, punk counterculture, and poetic narrative. His works embrace stripped-back palettes, raw surfaces, and direct mark-making — prioritizing urgency over refinement. Imperfection becomes a tool for clarity; the traces of process remain visible.

The exhibition title, WARSAW, reflects an internal terrain rather than a geographic reference — acknowledging tension, transformation, and reconstruction.

About the Venue

Galerie on Sunset — opening Fall 2025 — integrates high-design interiors, culinary programming, and cultural events. Featuring deep red velvet curtains, a marble-lined patio, and a walnut DJ booth, the venue introduces a multidisciplinary platform to the Sunset Strip and will serve as an ongoing location for ALLGORITHM-curated exhibitions.
